Board of Directors School District 509J Jefferson County, Oregon

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities and each major fund of School District No. 509J, Jefferson County, Oregon (the District) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. The prior year comparative information has been derived from the District's financial statements and, in our report dated October 8, 2014, we expressed opinions on the respective financial statements of the governmental activities and major funds.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of June 30, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Funding Progress, the Budgetary Comparison Schedules – General and Special Revenue Fund, the Schedule of Proportionate Share of the Net Pension Liability and the Schedule of Contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to Management's Discussion and Analysis, the Schedule of Funding Progress, the Schedule of Proportionate Share of the Net Pension Liability and the Schedule of Contributions in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Budgetary Comparison Schedules – General and Special Revenue Fund are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Budgetary Comparison Schedules – General and Special Revenue Fund, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by US Office of Management and Budget Circular A-133 *Audits of States, Local Governments and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards, as listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Supplementary Information, Other Financial Schedules and Supplemental Information Required by Oregon Department of Education, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Emphasis of a Matter

As discussed in Note 11 to the financial statements, in 2015 the District adopted new accounting guidance, GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment to GASB Statement No. 27. As required by GASB No. 68, the District has restated the beginning net position at July 1, 2014 to reflect the net pension liability calculated actuarially as of June 30, 2014. Our opinion is not modified with respect to this matter.

Report on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our report dated October 16, 2015 on our consideration of the District's internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated October 16, 2015, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe our testing of compliance and the results of that testing and not to provide an opinion on compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

As management of Jefferson County School District 509J, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with the balance of information presented in this report.

FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets of the District exceeded its liabilities at June 30, 2015 by \$8,786,506. Of this amount, \$14,073,268 represents the District's investment in capital assets net of debt service, \$718,668 is restricted for debt service, and \$49,885 is restricted with donor requirements leaving a deficit of \$6,055,315 in unrestricted.
- The District's total net position increased by \$6,842,832 from prior year ended June 30, 2014, as revised for comparison purposes for the adoption of *GASB No. 68 Accounting and Financial Reporting for Pensions*.
- The District's governmental funds reported combined ending fund balance of \$11,961,435 of which approximately \$3,098,036 is unassigned and available for spending at the District's discretion (page 14).
- At the end of the fiscal year, unassigned fund balance for the general fund on a budget basis was \$3,116,160, or about 10% of total general fund expenditures and transfers (page 14, 16).
- The District's total bonded debt decreased by \$1,579,735 during the 2014-15 fiscal year. The decrease was attributed to the payment of long term debt obligations.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

The Statement of Net Position. The statement of net position presents information on all of the assets and liabilities of the District at year end. Net Position is what remain after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities. The statement of activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. Examples are uncollected property taxes and earned but unused vacation leave.

In the government-wide financial statements the District's activities are shown in one category:

• Governmental activities. Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon State School Fund and other intergovernmental revenues.

The government-wide financial statements can be found on pages 12 and 13 of this report.

Fund financial statements. The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are reconciled to the government-wide Statements of Net Position and Activities.

The District maintains 42 individual governmental funds for administrative purposes. These funds are combined into the following major funds:

- General Fund includes various sub-funds.
- Special Revenue Fund includes special revenue funds related to federal, state and local grants, food service and student activities.
- Debt Service Fund includes General Obligation Bonds and Oregon School Boards Association (OSBA) State of Oregon Public Employees Retirement System (PERS) Bonds
- Capital Projects Fund used to account for the District's construction activity

Notes to the basic financial statements. These notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on page 18 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's compliance with the Oregon Minimum Standards for Audits of Oregon Municipal Corporations. The supplementary information is included in this report.

Oregon Department of Education requires certain schedules which are listed in the table of contents.

| Restricted | 768,553 | 953,995 | | |
| Unrestricted | (6,055,315) | (15,079,401) | | |
| Total net position | \$ 8,786,506 | \$ 1,943,674 | | |

Capital assets, which consist of the District's land, buildings, building improvement, vehicles, and equipment, represent 70.9% of total assets. The remaining assets consist primarily of investments, cash, receivables and prepaid pension cost.

The District's largest liabilities (88.6%) are for repayment of general obligation bonds and pension bonds.

A large portion of the District's net position reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students and other District residents. Consequently, these assets are not available for future spending.

Resources needed to repay general obligation debt must be provided from property taxes since the capital assets cannot be used to liquidate the general obligation liabilities.

Statement of Activities. The following schedule compares the revenues and expenditures for the current and previous year. Due to the adoption of GASB 68, the Statement of Activities for 2014 has not been updated; therefore, the ending Net Position does not agree to the beginning balance in 2015. Further information about the adoption of GASB 68 can be found in the Note 11 to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental funds. The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2015 the District's governmental funds reported combined ending fund balances of \$11,961,435. Approximately \$3,098,306 constitutes unassigned ending fund balance, which is available for spending at the District's discretion.

Summary of ending fund balances for the governmental funds for 2015 and 2014 are as follows:

| | 2015 | 2014 | Change |
|-----------------------|---------------|---------------|----------------|
| General Fund | \$ 11,008,658 | \$ 9,886,981 | \$ 1,121,677 |
| Special Revenue Funds | 234,109 | 165,520 | 68,589 |
| Debt Service Fund | 718,668 | 848,110 | (129,442) |
| Capital Projects Fund | | 7,281,508 | (7,281,508) |
| | \$ 11,961,435 | \$ 18,182,119 | \$ (6,220,684) |

GENERAL FUND BUDGETARY HIGHLIGHTS

The School Board approved changes to the adopted budget for fiscal year ended June 30, 2015. The approved changes to the adopted budget are reflected in the fund financial statements. The budget is adopted by the Board at the functional level.

The final budget for General Fund expenditures exceeded actual expenditures by \$1,058,422 of which \$889,425 is for instruction, and \$168,997 is for support services and community services.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment. During the year the District's net investment in capital assets increased by \$3,349,157. The increases are attributed to expenses incurred for construction in progress for the WS K-8 building, the performing arts center and various building improvements. The summary of net investment in capital assets is as follows:

| | Net Value | | | | |
|----------------------------|---------------|---------------|--|--|--|
| | 2015 | 2014 | | | |
| Land | \$ 2,614,251 | \$ 2,614,251 | | | |
| Construction in progress | 106,235 | 21,070,178 | | | |
| Buildings and improvements | 46,894,161 | 22,749,318 | | | |
| Vehicles and equipment | 1,335,979 | 1,167,722 | | | |
| Total capital assets | \$ 50,950,626 | \$ 47,601,469 | | | |

Additional information on the District's capital assets can be found in the footnotes to the basic financial statements.

Long-term liability. At the end of the fiscal year the District had \$47,444,955 in long-term debt, consisting of general obligation bonds for the construction of a K-8 school in Warm Spring, for the construction of the performing arts center and improvements to various District properties and pension obligation bonds to satisfy unfunded liability for employee retirement obligations and early retirement benefits payable.

Additional information on the District's long-term debt can be found in the footnotes to the basic financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

- The most significant economic factor for the District is the Oregon State School Fund. For the year ended June 30, 2015 the State School Fund provided 58.1% of the revenue for the governmental funds and 74.3% of the funding for the general fund.
- Salaries and benefits costs are expected to increase in fiscal year 2015-2016 based on contractual obligations.
- The District's enrollment is expected to remain flat over fiscal year 2014-2015.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

• The District received a three-year school improvement grant for the Warm Spring K-8 Academy in fiscal year 2014-2015. The grant will provide over \$1,600,000 in funding during that period.

These factors were considered by the District Board and Budget Committee in preparing the Jefferson County School District 509-J budget for the 2015-2016 fiscal year.

REQUESTS FOR INFORMATION

This financial report is designed to present the user with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Chief Financial Officer at 445 S.E. Buff Street, Madras, Oregon 97741.

| Amounts reported for governmental activities in the <i>Statement of Activities</i> are different because: | | |
| Governmental funds report revenue when available and measurable. In the Statement of Activities it is not required that revenues be collected in time to settle current liabilities. Following are revenues recorded differently in government funds than are reported in the Statement of Activities: | | |
| Anticipated adjustment to State school fund Pension income | 660,000 7,003,327 | 7,663,327 |
| Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current year. | | |

| Disposal of capital assets, net of accumulated depreciation Less current year depreciation | (1,796,843) (1,835,607) | 3.825.727 |
| Long-term debt proceeds are reported as other financing sources in governmental funds In the Statement of Net Assets, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the in the liability Statement of Net Assets. This is the amount by which repayments exceeded proceeds: | | |
| Debt principal repaid | | 1,328,630 |

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Jefferson County School District No. 509J (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting financial reporting principles. The District's significant accounting policies are described below.

Reporting Entity

Jefferson County School District No. 509J (District), a political subdivision of the State of Oregon, was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 in 1962, and provides education services to children from grades K - 12 located in Madras and surrounding areas including Metolius, the Warm Springs Indian Reservation and Big Muddy Ranch. The District has one high school, one middle school, one K-8 school and six elementary schools with an approximate total enrollment of 2,900 students. The District is governed by a separately elected five-member Board of Directors who approve administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the financial statements.

The accompanying financial statements present the governmental unit, Jefferson County School District No. 509J, Jefferson County, Oregon. The District qualifies as a primary government because it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and service districts which provide service within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these financial statements.

Government-wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Governmental activities are financed primarily through property taxes and intergovernmental revenues. The District has neither business-type activities nor fiduciary-type activities.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

The Statement of Activities presents a comparison between direct expenses and the program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double-counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rental, material, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Net position is reported as restricted when constraints placed on net position use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions. The government-wide statement of net position reports \$758,668 of restricted net position, of which \$718,668 is restricted by enabling legislation.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time a liability is incurred, regardless of the timing of related cash flows. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted funds available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year end. Property taxes and interest are considered to be susceptible to accrual. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded as expenditures only to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt or capital leases are reported as other financing sources.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. The fund accounts for all financial resources of the District, except those required to be accounted for in another fund. Principal revenue sources are property taxes and state school support.

The Special Revenue Fund accounts for revenues derived from federal, state and local grants and student activity funds which are either legally restricted or committed by the Board to finance particular functions or activities. Principal revenue sources are federal state and local grants and student activity fees.

The Debt Service Fund provides for the payment of principal and interest on general obligation bonds and limited tax pension obligation bonds. Principal resources are property taxes and transfers from the General Fund.

The Capital Projects Fund provides for the construction of capital assets by the District. Principal resources are general obligation bond proceeds.

As a general rule the effect of inter-fund activity has been eliminated from the government-wide financial statements. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition and monies invested with the Oregon State Treasurer's Local Government Investment Pool (LGIP). Short-term investments are stated at cost which approximates fair value.

State statutes authorize the District to invest in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, commercial paper and the LGIP, among others.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

The District's investments include the LGIP, including LGIP balances held with the County Treasurer. Investments are stated at cost which approximates fair value of the pool shares.

The Oregon State Treasury administers the LGIP. The pool is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds".

Property taxes are assessed on a July 1 - June 30 fiscal year. The taxes are levied and become a lien on July 1. Collection dates are November 15, February 15 and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. The County Assessor is the tax collection agent for all taxing entities within the County.

Property tax receivables are shown net of an allowance for uncollectible taxes. No allowance is considered necessary for the year ended June 30, 2015.

Tax revenue is considered received when in the hands of the county as the intermediary collecting agency. Taxes not paid timely are subject to interest penalties and the applicable property is subject to lien. All property taxes receivable are due from property owners within the District.

Accounts and other receivables are comprised primarily of claims for reimbursement of costs under various federal and state grants. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as deferred inflows.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Inventories

Inventory is stated at cost using the first-in/first-out (FIFO) method except USDA commodities which are stated at fair market value. The cost of inventory is recorded as an expenditure when consumed rather than when purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide statements. For governmental fund statement purposes, the District uses the purchase method accounting, where the expenditure is recorded when expended, rather than when service are provided.

Capital Assets

Capital assets, which include property, buildings and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life exceeding one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Capital leases are recorded at their inception as expenditures and other financing sources in the governmental funds and as assets and liabilities on the Statement of Net Position. They are recorded at the present value of the minimum lease payments, using the interest rates stated or implicit in the leases. Lease payments are recorded as expenditures on the due date; the portion of the payments applicable to principal, determined by using interest rates stated or implicit in the leases, is reported as a reduction of the lease liability on the Statement of Net Position.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, buildings and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Buildings and improvements 10 to 50 years Equipment 5 to 30 years

Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since sick pay does not vest. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Retirement Plans

Substantially all of the District's employees are participants in PERS. Contributions to PERS are made on a current basis as required by the plan and are charged to expenses/expenditures.

The Board adopted a tax-deferred annuity plan established pursuant to Section 403(b) of the Internal Revenue Code. The plan allows the employer to make employer matching contributions. Under the terms of union employment agreements, the District is required to make a maximum monthly matching contribution not to exceed \$10 per month for all participating employees except certified employees eligible for the early retirement benefit described below. Participating employees have the option to make an unmatched contribution in excess of \$10 per month. Total pension expense recognized for the Section 403(b) plan was \$34,840.

Early Retirement Benefits

An early retirement plan is available to employees who meet guidelines of a plan adopted by the Board. Employees are eligible to apply for participation in the plan if they are 55 years of age or over and have been employed ten consecutive years with this District. In the case of certified employees, a total of 15 years of employment in a certified position in the Oregon public education system is required of which ten consecutive years are with the District.

Employees who apply and are approved by the Board receive, after they retire, 18% of the average of the highest three of the last five years annual earnings with the benefit not to exceed the computed amount times four years. Employees do not contribute to this plan. The Board may close the program at their discretion, eliminating additional participation and limiting the District's liability to those already participating in the program. Employees accrue no vested benefits prior to their acceptance in the program.

The Board stipulated that in order to continue, the program must produce savings in the salaries of replacement personnel sufficient to fund the program cost as the obligations become due.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

The District's liability is funded on a pay-as-you-go basis. These benefits are in addition to benefits which may become available under the pension plan administered under the State of Oregon Public Employees Retirement System.

In the government-wide statements, a liability for the present value of the future outflows has been reported.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, bond premiums and discounts are recognized when incurred and not deferred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Fund Equity

The District reports fund balance in accordance with GASB No 54, Fund Balance Reporting and Governmental Fund Type Definitions. As a result in the fund financial statements, governmental funds are categorized by the nature of the resources within the fund. The District reports fund balance using the following categories:

<u>Nonspendable fund balance</u> indicates the portion of fund equity that cannot be spent as it is not in a spendable form, such as inventories and prepaid expenditures.

<u>Restricted fund balance</u> indicates the portion of fund equity which is externally restricted by creditors, grantors or law.

<u>Committed fund balance</u> indicates the portion of fund equity which the board of directors has placed formal constraints on through resolution or board policy.

<u>Assigned fund balance</u> indicates the portion of fund equity which the district intends to use for specific purposes imposed by management. The authority for the Superintendent to assign resource for specific purposes is granted by the board of directors.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

<u>Unassigned fund balance</u> indicates the portion of general fund equity which is available for budgeting in future periods.

When an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available, the district considers restricted funds to have been spent first. For the classification of unrestricted ending fund balance, the district first reduces committed and assigned amounts, then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those classifications could be used.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Budget

Annual budgets, as required by state statutes, are adopted on the modified accrual method of accounting, a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds.

The budget is prepared by fund, function and activity. The budget document includes information on the past two years, current year budget information, as well as requested appropriation and estimated revenues for the ensuing fiscal year.

The proposed budget is presented by the budget officer to the budget committee. Public meetings are held by the budget committee. The budget committee may make changes to the original document. The budget committee approves the budget document to be submitted to the governing body of the district. Once the budget document is received by the governing body, they hold a public hearing on a date as published. After the public hearing, the governing body gives consideration to matters discussed and makes amendments to the budget document prior to adoption. However, state statues do not allow the governing body to increase estimated expenditures for each fund by more than ten percent. The amount of the total ad valorem taxes to be certified by the county for levy for all funds shall not exceed the amount presented by the budget committee unless the budget document is republished and another public hearing is held.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

The governing body is then required by state statutes to adopt the budget, make appropriations, and certify the levy of ad valorem taxes for each fund. Except for the allowance of appropriation transfers, expenditures cannot exceed appropriations. The level of control for appropriations is exercised at the program level.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriations ordinance. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control. Such transfers require approval by the governing body. All appropriations lapse at the end of the District's fiscal year.

NOTE 2 – BUDGETARY ACCOUNT GROUPINGS

The District has budgeted for administrative purposes, sub-fund account groupings within the General Fund. Intrafund transfers among the sub-fund account groupings have been eliminated to properly present financial statement balances for the funds. The sub-funds have been employed to allow the administration flexibility in managing fiscal matters while complying with statutory requirements. The sub-fund account groupings used for administrative purposes are as follows:

General Fund

General Operations
Bus Purchase
Warm Springs Housing
Equipment Replacement
Maintenance Projects
PAC Fund

PERS Bond Reserve Stabilization Fund Warm Springs Facility Technology Replacement Textbook Replacement

NOTE 3 - CASH AND INVESTMENTS

A reconciliation of cash and investments as shown on the financial statements for the District follows:

| Deposits with financial institutions | \$ 2,217,901 |
|--|------------------|
| Investments | |
| LGIP | 8,299,876 |
| Jefferson and Wasco Counties Investment Pool | 3,112,520 |
| Equity investments donated to District | 1,048 |
| Total shown on Statement of Net Position | \$ 13,631,345 |

Deposits

At June 30, 2015 the District held cash of \$2,217,901 with a bank balance of \$2,828,389. Oregon Revised Statute Chapter 295 requires that bank depositories pledge collateral against any public fund deposits in excess of deposit insurance amounts. This provides additional protection for public funds in the event of a bank loss. The Office of the State Treasurer maintains a list of financial institutions in which deposits in excess of deposit insurance limits can be held. As of June 30, 2015 the District's cash balances exceeded FDIC insurance by \$1,560,730.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State statutes require that all bank deposits in excess of the FDIC or FSLIC insurance amounts be collateralized through the Oregon State Treasurer's Public Funds Collateralization Program. This program provides a structure for specified depositories to participate in a shared liability collateral pool.

Securities pledged by individual institutions may range from 10% to 110% of public fund deposits depending on the financial institution's level of capitalization as determined by its federal regulatory authority. The aggregate Oregon public fund collateral pledged at June 30, 2015, was \$1,446,787,655 for reported uninsured public funds of \$1,818,055,422. The custodian, Federal Home Loan Bank of Seattle, is the agent for the depository bank. The securities pledged are designated as subject to the Pledge Agreement between the depository bank, custodian bank and Office of the State Treasurer (OST) and are held for the benefit of OST on behalf of the public depositors. The District's funds were held by financial institutions that participated in the State Treasurer's program and were in compliance with statutory requirements.

Investments

As of June 30, 2015 the District held the following investments:

| | | % Of |
|--|---------------|------------|
| | | investment |
| Investment Type | Fair Value | portfolio |
| Local Government Investment Pool | \$ 8,299,876 | 72.72% |

| Corporate securities | 1,048 | 0.01% |
| | \$ 11,413,444 | 100.00% |

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits investments as follows:

| | Maximum % | Maximum length |
|---------------------------------------|--------------|----------------|
| Investment Type | of portfolio | to maturity |
| US Treasury securities | 100% | 18 months |
| US Agency securities | 100% | 18 months |
| Banker's acceptance | 25% | 18 months |
| Repurchase agreements | 25% | 18 months |
| Certificates of deposit | 25% | 18 months |
| Local Government Investment Pool | 100% | One day |
| State and local government securities | 50% | 18 months |

Maturities over 18 months will be allowed following review and approval of the District's Investment Policy by the Oregon Short Term Funds Board.

Custodial credit risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. None of the investments above are held in safekeeping by a financial institution counterparty.

The District's policy, which adheres to State of Oregon law, is to limit its investments to the following: Issuers within Oregon must be rated "A" or better by Standard and Poor's or Moody's Investors Service, issuers not in Oregon must be rated AA/Aa or better. The District is holding \$1,048 in equity securities that were donated and for which no rating is available. Investments in the Local Government Investment Pool and the Jefferson and Wasco County Investment Pools are not required to be rated.

Investments – External Investment Pools

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the LGIP.

The LGIP is one of five asset classes approved for the investment of State of Oregon (State) funds. A number of local governments in Oregon as well as all State agencies participate in the LGIP, thus it is an external investment pool as defined in Statement No. 31 of the Government Accounting Standards Board, Accounting and Financial Reporting for Certain Investments and for External Investment Pools.

The LGIP is not registered with the U.S. Securities and Exchange Commission as an investment company. The State's investment policies are governed by the Oregon Revised Statutes and the Oregon Investment Council (Council). The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution.

Investments in the LGIP are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The LGIP was in compliance with all portfolio guidelines at June 30, 2015. The reported value of the LGIP approximates the fair value of the LGIP shares and is calculated on a daily basis.

In addition, the District voluntarily participates in an external investment pool through the Jefferson County Treasurer. The reported value of the pool approximates the fair value of the pool shares. The fund is not registered with the U.S. Securities and Exchange Commission as an investment company. The County's investment policies follow investment guidance of Oregon Revised Statutes (ORS 294.035 through 294.046) and more specifically provides that the Jefferson County Investment Pool shall be limited to:

- a. Legally issued obligations of the United States, the agencies and Instruments of the United States or enterprises sponsored by the United State government.
- b. Time deposit open accounts, certificates of deposit and savings accounts in banks, mutual savings banks and savings and loan associations which maintain a head office or branch in Oregon.
- c. Governmental repurchase agreements, fully collateralized, not to exceed 30 days.
- d. Bankers' acceptance that are guaranteed by an Oregon financial institution.
- e. LGIP.

Bonds Payable

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds are general issued as 20-year serial bonds with equal amounts of principal maturing each year.

NOTES TO FINANCIAL STATEMENTS

NOTE 8 - LONG-TERM LIABILITIES - continued

General Obligation Bonds

On March 15, 2002, the District issued \$15,800,000 in general obligation bonds to finance additions, improvements, capital renovation and reconstruction at District school sites. On May 23, 2013 the outstanding par amount of \$9,780,000 was refunded with a true interest cost of 1.63% and an average coupon rate of 3.65%. The net proceeds after payment of underwriting fees and other issuance costs were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments of the May 15, 2002 general obligation bonds. As a result, the 2002 general obligation bonds are considered to be defeased and the escrowed assets and liability for the bonds have been removed from the government-wide financial statements.

The refunding reduced total debt service by \$1,642,027 and obtained an economic gain defined as the difference between the present values of the debt service payments on the old and new debt of 16.62%.

In May 2012 voters of the District passed a \$26,700,000 bond issue for improvements to school facilities in Madras and Metolius and to pay for half of the cost of constructing a K-8 school in Warm Springs. On May 23, 2013, the District issued \$24,835,000 in general obligation and refunding bonds (General Obligation and Refunding Bonds, Series 2013). Of this issue, \$15,960,000 was issued to finance the improvements to school facilities in Madras and Metolius. The remaining funds were used to refund the March 15, 2002 general obligation bonds.

On July 23, 2013, the District issued the remaining \$10,740,000 in general obligations bonds approved by voters in May 2012. The proceeds were used to fund half of the cost of constructing a new Warm Springs K-8 school, in a joint project with the Confederated Tribes of Warm Springs.

Limited Tax Pension Obligation Bonds

On October 31, 2002, the District participated in the OSBA Pension Bond Pool (Series 2002 OSBA Limited Tax Pension) to finance the District's estimated PERS unfunded liability. The District issued \$12,506,637 in debt as part of the pooled issuance. Except for the payment of its pension bond payments and additional charges when due, each school district has no obligation or liability to any other participating school district's pension bonds or liabilities to PERS.

Bond proceeds were paid to the Oregon Public Employees Retirement System. An intercept agreement with the State of Oregon was required as a condition of issuance; therefore a portion of State School Fund support is withheld on a monthly basis to repay debt.

NOTES TO FINANCIAL STATEMENTS

NOTE 8 - LONG-TERM LIABILITIES - continued

On January 31, 2012 the District participated with six other school districts to issue the OSBA Limited Tax Pension Refunding Obligations Series 2012 to advance refund the 2021 debt service obligation of the Series 2002 OSBA Limited Tax Pension Issuance. The District issued \$835,000 in debt as part of the \$22,000,000 pooled issuance. As a result, the 2021 portion of the Series 2002 OSBA Limited Tax Pension is considered to be defeased and the escrowed assets and the liability for bonds have been removed from the government-wide financial statements.

The District is subject to statutory limitations on indebtedness. Presently the District's net bonded debt is \$53,526,943 less than the statutory debt limit. No interest was capitalized during 2015.

Other Post-Employment Benefits

Special termination benefits have been made available to employees who meet guidelines of a plan adopted by the Board, as described in Note 1.

The liability is funded on a pay-as-you-go basis by the general fund. The liability is measured at the discounted present value of expected future benefit payments using a discount rate of 3.8%. These benefits are in addition to benefits which may become available under the pension plan administered under the Oregon PERS.

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS

Postemployment Healthcare Plan (implied rate subsidy)

The District reports its liability for other postemployment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

Plan Description

The District sponsors a self-pay early retirement health insurance program for its retirees. The health insurance program is a post-employment benefit plan that allows eligible retirees and their dependents to purchase continuation coverage under the District's health insurance plans from the date of retirement until eligible for Medicare as required under ORS 243. The statutory requirement under ORS 243 results in an "implicit rate subsidy," the difference between expected early retiree claim costs and the premium paid by the retiree. GASB Statement 45 requires recognition of the cost and liability of this implicit rate subsidy in the government-wide financial statements.

Currently, the District participates in the Oregon Educators Benefit Board, a statewide agent multiple-employer plan for health insurance benefits. Benefits and eligibility for members are established through the collective bargaining agreements. For the purposes of the actuarial valuation, as of October 1, 2014, there were 345 active and 25 retired members.

The District's annual OPEB cost is reflected on the Statement of Net Position on the accrual basis, and is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. There is no separate, audited GAAP-based postemployment benefit report available for this Plan.

Funding Policy

The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance.

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS- continued

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit cost (expense) for the postemployment health insurance subsidy is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance within the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the OPEB obligation as of June 30, 2015 and 2014:

| | Fiscal Year-Ended | | | | |
|--|-------------------|--------------|--|--|--|
| | 2015 | 2014 | | | |

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS- continued

Funded Status and Funding Progress

The Schedule of Funding Progress, included as Required Supplementary Information immediately following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial valuations on an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The projected unit credit cost method was used in the actuarial valuation. The actuarial assumptions included a discount rate of 3.5 percent for unfunded liabilities and a 55% assumption of participants who elect medical coverage at retirement. The medical and prescription drug rate is assumed to increase 7.0% in 2014 reducing to 5.75% over the next fifteen years. The UAAL is being amortized as a level dollar amount over an open period of 10 years. The demographic assumptions, such as mortality rates, disability incidence rates, retirement rates, and withdrawal rates, are the same as those used by Oregon PERS for school districts.

NOTE 11 – PUBLIC PENSION RETIREMENT PLAN

Plan Description

The District contributes to the Oregon Public Employees Retirement System (PERS) which is a cost sharing multiple employer defined benefit pension plan. Plan assets may be used to pay the benefits of the employees of any employer that provides pensions through the plan. Participation by schools districts is mandatory. PERS issues a publicly available financial report which can be obtained on their website, www.oregon.gov/PERS.

PERS is administered in accordance with Oregon Revised Statutes (ORS) Chapter 238, Chapter 238A, and Internal Revenue Code Section 401(a). The Oregon Legislature has delegated authority to the Public Employees Retirement Board (Board) to administer and manage the System. All members of the Board are appointed by the governor and confirmed by the state Senate. The governor designates the chairperson. One member must be a public employer manager or a local elected official, one member must be a union-represented public employee or retiree, and three members must have experience in business management, pension management, or investing.

The 1995 Legislature enacted Chapter 654, Section 3, Oregon Laws 1995, which has been codified into ORS 238.435. This legislation created a second tier of benefits for those who established membership on or after January 1, 1996. The second tier does not have the Tier One assumed earnings rate guarantee and has a higher normal retirement age of 60, compared to 58 for Tier One. As of June 30, 2014, there were 36,176 active plan members, 118,496 inactive plan members or their beneficiaries currently receiving benefits, 14,901 inactive plan members entitled to but not yet receiving benefits, and 1,712 inactive plan members not eligible for refund or retirement, for a total of 171,285 Tier One members. As of June 30, 2014, there were 43,367 active plan members, 9,447 inactive plan members or their beneficiaries currently receiving benefits, 11,277 inactive plan members entitled to but not yet receiving benefits, and 5,112 inactive plan members not eligible for refund or retirement, for a total of 69,203 Tier Two members in the System.

The 2003 Legislature enacted HB 2020, codified as ORS 238A, which created the Oregon Public Service Retirement Plan (OPSRP). OPSRP consists of the Pension Program (defined benefit), which is part of the Plan and the Individual Account Program, which is reported as a separate plan in PERS financial statements. Membership includes public employees hired on or after August 29, 2003. As of June 30, 2014, there were 85,431 active plan members, 1,195 inactive plan members or their beneficiaries currently receiving benefits, 3,652 inactive plan members entitled to but not yet receiving benefits, and 6,992 inactive plan members not eligible for refund or retirement, for a total of 97,270 OPSRP Pension Program members.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 11 - PUBLIC RETIREMENT PLAN - continued

Beginning January 1, 2004, PERS active Tier One and Tier Two members became members of the Individual Account Program (IAP) of OPSRP. PERS members retain their existing Plan accounts, but member contributions are now deposited into the member's IAP account, not into the member's Defined Benefit Plan account. Accounts are credited with earnings and losses net of administrative expenses. OPSRP is part of PERS and is administered by the Board. The PERS Board is directed to adopt any rules necessary to administer OPSRP, and such rules are to be considered part of the plan for IRS purposes.

For the year ended June 30, 2015, the District's total payroll for all employees was \$18,610,758. Total covered payroll was \$16,429,101. Covered payroll refers to all compensation paid by the District to active employees covered by PERS.

Contributions

PERS members are required to contribute 6% of their salary and the employer makes contributions at an actuarially determined rate as adopted by the PERS Board. The rate for Tier I and Tier II for the year ended June 30, 2015 was 15.5% of covered annual payroll. The rate for OPSRP for the year ended June 30, 2015 was 13.5%. The contribution requirements of plan members are established by state statute. The employer contribution is set and may be amended by the Retirement Board. The District's contributions to Oregon PERS for the year ended June 30, 2015 was \$2,434,961. In addition, employee contributions made by the District under employment contracts were \$957,896 employee contributions for the year ended June 30, 2015.

<u>Pension Assets, Pension Income, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2015, the District reported an asset of \$5,442,268 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2012. Update procedures were used to roll forward the total pension liability to the measurement date.

The basis for the employer's proportion is actuarially determined by comparing the employer's projected long-term contribution effort to the Plan with the total projected long-term contribution effort of all employers. No change has been made to the District's proportionate share since the prior measurement date. The rate for every employer has at least two major components; Normal Cost Rate and Unfunded Actuarial Liability (UAL) Rate.

The projected long-term contribution effort is estimated by projecting the present value of all future Normal Cost Rate Contributions (PVFNC). The PVFNC represents the portion of the projected long-term contribution effort related to future service.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2015

NOTE 11 - PUBLIC RETIREMENT PLAN - continued

An employer's PVFNC depends on both the Normal Cost Rates charged on the employer's payrolls, and on the underlying demographics of the respective payrolls. For PERS funding, employers have three different payrolls, each with a different Normal Cost Rate:

- Tier 1/Tier 2 payroll
- OPSRP General Service payroll
- OPSRP Police & Fire payroll

A UAL exists when Plan assets are less than the actuarial liability as measured by the Plan's actuarial funding valuations. UAL can arise in a biennium when an event such as experience differing from the assumptions used in the actuarial valuation occurs. An amortization schedule is established to eliminate the UAL that arises in a given biennium over a fixed period of time if future experience follows assumption. The UAL Rate is the upcoming year's component of the cumulative amortization schedules, stated as a percent of payroll. The UAL represents the portion of the projected long-term contribution effort related to past service. The projected long-term contribution effort is equal to the sum of the PVFNC and the UAL.

After the employer's projected long-term contribution effort is calculated, that amount is reduced by the value of the employer's supplemental lump-sum payments, known as side accounts, transition surpluses and pre-SLGRP (State and Local Government Rate Pool) surpluses. Side accounts decrease the employer's projected long-term contribution effort because side accounts are effectively pre-paid contributions.

The employer's projected long-term contribution effort does not include contributions toward the current value of transition liabilities and pre-SLGRP (State and Local Government Rate Pool) liabilities, which PERS has determined meet the definition of separately financed employer liabilities.

NOTE 11 - PUBLIC RETIREMENT PLAN - continued

For the year ended June 30, 2015, the District recognized pension income of \$7,003,327. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred | Deferred |

Actuarial Assumptions

The total pension liability in the December 31, 2012 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.75 percent |
|--------------------|------------------------------|
| Salary increases | 3.75 percent, plus assumed |
| | rates of mortality/longevity |
| | increases |
| Investment rate of | |
| return | 7.75 percent |

Mortality rates were based on the RP-2000 sex-distinct, generational per Scale AA, with collar adjustments and set-backs as described in the valuation.

The actuarial assumptions used in the December 31, 2012 valuation were based on the results of an actuarial experience study for 2012, published September 18, 2013.

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2013 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Discount Rate

The discount rate used to measure the total pension liability of the Plan was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

| | | Proportionate | | |

Plan Fiduciary Net Position

Detailed information about PERS's fiduciary net position is available in the separately issued Oregon Public Employees' Retirement Plan financial report, available on the Oregon PERS website.

Changes in Plan Provisions Subsequent to Measurement Date

The Oregon Supreme Court on April 30, 2015, ruled in the Moro decision, that the provisions of Senate Bill 861, signed into law in October 2013, that limited the post-retirement COLA on benefits accrued prior to the signing of the law were unconstitutional. Benefits could be modified prospectively, but not retrospectively. As a result, those who retired before the bills were passed will continue to receive a COLA tied to the Consumer Price Index that normally results in a 2% increase annually. PERS will make restoration payments to those benefit recipients.

PERS members who have accrued benefits before and after the effective dates of the 2013 legislation will have a blended COLA rate when they retire.

NOTE 11 - PUBLIC RETIREMENT PLAN - continued

This is a change in benefit terms subsequent to the measurement date of June 30, 2014, which will be reflected in the next year's actuarial valuations. The impact of the Moro decision on the total pension liability and employer's net pension liability (asset) has not been fully determined. However, PERS' third-party actuaries have estimated the impact of the Moro decision under one possible methodology, which is summarized below (dollars in millions). Estimates have been rounded to the nearest \$10 million.

NOTE 12 - ENVIRONMENTAL MATTERS

The District has complied with EPA standards for asbestos encasement as well as maintenance of an asbestos management plan. In addition, the District's fuel storage facilities meet EPA standards including annual testing requirements.

NOTE 13 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District carries commercial insurance for risks of loss, including workers' compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. Insurance coverage has not changed significantly from prior years.

NOTES TO FINANCIAL STATEMENTS

NOTE 14 – STABILIZATION FUNDS

During fiscal year 2008-09, the board of directors established, through resolution, a stabilization fund for use in stabilizing the highs and lows of funding from federal, state and local sources and to provide a consistent education opportunity for students over a long period of time. In addition, the board established a separate reserve fund to protect the general fund from anticipated rising PERS costs.

The funds are to be expended to equalize funding year to year and to transfer to the general fund to offset rising PERS costs. They may only be expended by board resolution or as part of the annual budget process. The fund balance in these stabilization funds are reported as committed in the governmental fund financial statements.

NOTE 15 – RESTATEMENT

The District adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions, during the fiscal year ended June 30, 2015. The net position of the District's governmental activities as of June 30, 2014 has been restated to reflect the change in accounting principle. The impact of this restatement on net position is as follows:

| | Governmental | | |
|---|--------------|--------------|--|
| | Activities | | |

AUDITOR'S COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors School District 509J Jefferson County, Oregon

We have audited the basic financial statements of the School District No. 509J, Jefferson County, Oregon (the District) as of and for the year ended June 30, 2015, and have issued our report thereon dated October 16, 2015. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

We noted certain matters that we have reported to management of the District in a separate letter dated October 16, 2015.

This report is intended solely for the information and use of management, the Board of Directors and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors School District No. 509J Jefferson County, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of School District No. 509J, Jefferson County, Oregon (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 16, 2015.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS - continued

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of the District in a separate letter dated October 16, 2015.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and is not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Directors School District No. 509J Jefferson County, Oregon

Report on Compliance for Each Major Federal Program

We have audited School District No. 509J, Jefferson County, Oregon (the District's) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2015. The District's major federal programs are identified in the summary of the auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2015.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 - continued

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will note be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
