

# Schools in Action

## Thank you, 509J Voters

JCSD 509J / FY2021-2022/ Nov. 2021

Thank you, voters of the Jefferson County School District. This proposed bond measure will allow the district to make critical health and safety improvements and upgrades to all of our schools. It will truly allow our students to flourish in 509J. This investment into our school buildings would not be possible without your support. The primary goal of this bond measure is to help keep our students warm, safe, and dry. At a time when we've seen the importance and value of in-person learning, we can strive to make that learning space more safe, and allow our students and staff to get better every day.

- Jay Mathisen, Superintendent

## Students Flourish Here

MHS [Above] - In late October, Madras High School honored four distinguished alumni for their work in their professional lives. This is the fourth year of this program. It can help serve to inspire our current students about the possibilities out there and what they can achieve as a 509J student. The four alumni were: Dr. Janice Clemmer, Class of '59, Stephen Hillis, Class of '60, Judge Daniel Ahern, Class of '77, Alyssa Macy, Class of '93

Madras Elementary [Above] - K&S Farms graciously donated pumpkins to Madras Elementary. Every student got a chance to pick one out. Some students then got a chance to decorate it in their classes!

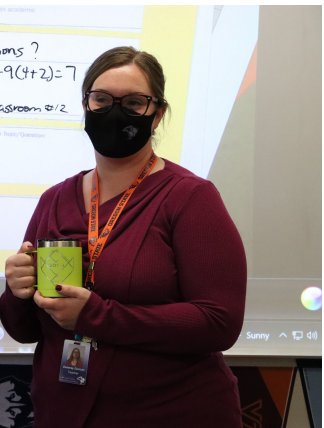

509J Online [Above] - 509J Online students got a chance to meet their teachers in person recently. The students got to do arts and crafts, play games, do some dancing and more!

Metolius Elementary [Above] - Students talked about people they may know who are Veterans. They learned all five branches of the military. Their teacher told them if they knew a Veteran the best thing to say is simply, "Thank you for serving our country."

## We Care For Each Other

JCMS [Left] AVID teacher Deseray Duncan was named October's Certified Employee Spotlight. She's been with the district for 6 years, and all of them have been at JCMS! Thank you, Deseray, for your hard work every day!

Bridges High School [Right] - Connie Minton was named October's Classified Employee Spotlight. She is an Educational Assistant at Bridges High School. She has worked for 509J for a decade now! Thank you Connie for your hard work every day!

## Better Every Day

Warm Springs K-8 - [Left] taking part in REACH. REACH stands for Reinforce, Extend, Achieve, Challenge, and Help for All. It offers kids time to complete homework, extend learning in a subject area, and more!

Buff Elementary [Right] - Kindergarten Students were recognized for being able to count to 100 at an assembly!
